

ENVIRONMENT, SAFETY & HEALTH POLICY

indus
TOWERS

To achieve a goal of **Zero** Work related Fatality, Fire, Tower Collapse and Minimal Environmental Impact, Indus would take the following actions:

- Be compliant to Indus EXCITE value of “Environment”, ESH Standards, Rules, regulations and relevant legislations
- Carry out Hazard Identification and risk assessment in order to systematically create awareness, reduce & eliminate the hazards in Indus operations
- Develop, document and implement relevant procedures
- Provide ESH trainings to employees, associates and partners to increase their awareness & to help understand ESH requirements
- Continually improve ESH performance to reduce the work related incidents, environmental emissions, wastes and energy usage relative to the activities
- Lead from the front and set an example of safe behaviour, safe workplace by always following our 6 Life Saving Rules

Indus Towers is committed to protect the Environment, Safety and Health of employees, associates and partners directly involved in its operations and physical assets.

Indus Towers believes that a strong commitment to Environment, Safety and Health will benefit all aspects of the organization.

Each Employee, Associate and Partner is personally responsible for implementing & maintaining the ESH requirements necessary to sustain this policy.

Bimal Dayal

Chief Executive Officer
